WORK EXPERIENCE

Software Engineer Intern, BGYRT Academy , Mumbai　　　　**Jan 2024 - July 2024**

- Developed real-time trading systems with Node.js for instant trade execution.
- Maintained and optimized trading scripts for market alignment and accuracy.
- Built a React-based dashboard to identify key stocks, enhancing strategy planning.

Full-Stack Developer , MARGOSATREE TECHNOLOGIES LLP , Mumbai　　**Sept 2024 - Dec 2024**

- Successfully developed frontend features for projects Mira and Synergy using React.
- Implemented dynamic data fetching and seamless page routing with React Router.
- Designed and handled CRUD operations through intuitive UI components in Synergy.
- Ensured responsive and user-friendly interfaces, optimizing user experience.

PROJECTS

SYNERGY - A report generating web software

- Synergy is a report-generating web application developed using React.js for the frontend and Node.js for the backend.
- It allows users to input, process, and manage data to generate detailed reports efficiently.
- The platform features a user-friendly interface with CRUD operations to enhance productivity.

iNotebook - A Note taking Application

- This project is an office production domain project.
- The purpose of the project is to save user notes online.
- The technology used includes ReactJs for the frontend, NodeJs and ExpressJs for the backend, and MongoDB for the database.

MediConnect - Doctor Appointment Web Application

- The purpose of this project is to facilitate seamless interaction between patients and healthcare providers by providing a platform for appointment booking and doctor registration. The project is built using Mern Stack.
